

# OPEN DATA FEST!

JAN 24 2017

Agencies and organizations across California already are using their **KNOWLEDGE, DATA, and TOOLS** to serve children, families, and communities...

... **BUT** these resources too often are **NOT SHARED**, information is **NOT ROUTINELY EXCHANGED**, and collaboration is **NOT THE NORM**...

RANKED #36

California STILL has WORK TO DO!

This is a CONTINUATION of WORK that was begun THREE YEARS AGO...

Annie Casey CHILDHOOD WELLBEING SURVEY

improve people's lives!

## FRAMING THE BIG ISSUES!

Phil Browning  
Kalene Gilbert  
Elisa Nicholas  
...with Marta Induni

## WHY DOES DATA MATTER?

- EFFICIENCY through COLLABORATION...
- It's EVIDENCE... It can EXPLAIN SUCCESSSES... and POINT TO GAPS...
- Be a TRAUMA-INFORMED ORGANIZATION/COMMUNITY...
- COMMUNICATION! WHO KNOWS WHAT?
- Identify NEEDS... as well as WHAT KIND OF SERVICES

## MAKE DATA ATTRACTIVE!

WHAT ABOUT NON-PROFITS? Some children are served by organizations that aren't PUBLIC!

## WHAT CAN WE DO

to ADVANCE CROSS-SECTOR COOPERATION, ENHANCE LEARNING, IMPROVE EFFICIENCY, and most importantly, ACHIEVE BETTER OUTCOMES?

- We THINK OF DATA from a PERSON-CENTERED PERSPECTIVE!
  - Context-specific...
  - Considers COMPLEXITY...
- Think ACROSS SECTORS.
- Take INFORMATION... Create KNOWLEDGE...
- Advance POLICY and INNOVATION...
- FOCUSED! STRATEGIC! BETTER INFORMED!
  - "Data and analytics can help us to BETTER SERVE CHILDREN."
- Think REGIONALLY...
- Pair DATA with data from other sources.

## FIRST 5

- Funded by tobacco taxes...
- Enables critical assessments and home visits.
- Linking and analyzing DATA through data resources, aggregation, and partnerships.
- Better understand service and information needs via 211

## OPEN DATA!

It's great... but so is the ENVIRONMENT around it...

Opens up possibilities for PARTNERSHIP.

Enhances CLARITY... Informs DECISION-MAKING and BEHAVIOR...

We need to be CATALYSTS FOR CHANGE!

## Look at the INDIVIDUAL IN CONTEXT.

## MAPPING THE CONTEXT of INDIVIDUALS' LIVES...

- Which SYSTEMS touch this individual?
- WHERE is the CARE COORDINATED?
- Where are the GAPS?

## relationships MATTER!

## HOW

- Will the DATA be USED?
  - TRACKING?
  - IDENTIFICATION?
  - CARE COORDINATION and PLANNING?
  - RESEARCH? POPULATION DATA?

## WHAT ARE THE QUESTIONS WE ARE ALL ASKING?

- Data Exchange as DASHBOARDS
  - Common data elements.
  - DOMESTIC VIOLENCE.
  - MATERNAL DEPRESSION.
  - RISK FACTORS in the HOME.
- ... and are we ASKING QUESTIONS in the same way?

## LINKING INFORMATION across systems, jurisdictions...

HEALTH... INTER-OPERABLE... COMPATIBLE... CHILD WELFARE... COUNTIES... RIGHT DATA... RIGHT PERSON... RIGHT TIME...

Care Coordination. Early Intervention.
