think about WHAT is the ROLE of the STAKEHOLDERS PARTNERS?

If you see something, say something!

let's connect and coordinate activity of all Police Depts along the Safe River Corridor

Case study NJ

USING PROJECT INTEROPERABILITY is like MODULAR DEVELOPMENT...

NATIONAL INFORMATION EXCHANGE MODEL
COMMON LANGUAGE — community-driven data model
+
REPEATABLE REUSABLE PROCESS — information exchange development lifecycle

there's an EMERGING NEXUS between PUBLIC SAFETY and PUBLIC HEALTH

now there's a concerted EFFORT to track trends in SAFETY as a predictor.
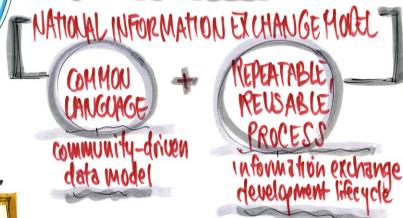

WHAT CAN WE GO HOME AND APPLY NOW?

IDENTIFY a COMMUNITY of People COMMITTED to working on this

Spend a lot of TIME ENGAGING in OPEN FORUMS and DIALOGUE

HOW to ESTABLISH COMMUNITIES of PRACTICE and PROJECT INTEROPERABILITY:
1 SPONSORSHIP: CHS + ACF etc
2 COMMUNITY-BASED EFFORT: allow & encourage it to emerge!
3 LEADERSHIP @ STATE & LOCAL LEVELS for OWNERSHIP & SHARED VISION @ ALL LEVELS
4 FORUMS to work within: Stewards of Change, local public health, etc

is ANCHORED in the LOCAL COMMUNITY who has a COMMON MISSION

provides a VOICE to our non-Federal partners

LOCAL CONTROL is critical to their Success!

we're passionate about SHARING INFORMATION!
